Registrar's Prize in Clinical Neuroscience

January 29th, 2021

08.30 – 09.00 *Registration*

09.00 – 09.10 Welcome and Introduction
Dr. Áine Merwick.

<p style="text-align: center;">INTERESTING CASE REPORTS 10 minutes: 8 minutes + 2 minutes questions</p>

Session I

- 09.10 A Fighting Chance: Description of a Remarkable Recovery in Patient with Ser70Arg TTR mutation on Diflunisal Therapy.
Mooney S, Connolly S, Ndukwe I, Murphy S, Coyne M, Joyce E, Gilmore J, Tubridy N, McGuigan C, O’Riordan S, Kinsella J.
- 09.22 Don’t hold your breath: A case of adult onset breath-holding.
Rafee S, Flynn C, O’Regan J, Tubridy N, Connolly S.
- 09.34 *‘The Dripping Faucet’*.
Reynolds A, Ronan G, Fanning N, Merwick A.
- 09.46 A case of Urbach-Wiethe disease associated with ictal fear.
Togher Z, Redmond A, Troy E, Penugonda M, Crumlish N, Langan Y, Hutchinson S.
- 09.58 Fish out of water: ataxia and visual impairment in a young woman.
Vaughan D, Costello D.
- 10.12 A Case of Autosomal Dominant Optic Atrophy Plus Syndrome.
Brennan D, Redmond J.

10.30 – 10.45 Tea and Coffee Break

Session II

- 10.45 An epilepsy phenotype that rings a bell.
Moloney P, McHugh J, O'Byrne J, Llamas Y, McGovern E.
- 10.57 Severe peripheral sensory axonopathy with retained H-reflexes – a distinctive form of non-paraneoplastic ganglionopathy.
McKenna MC, Kinsella J, O'Riordan S, Connolly S.
- 11.09 An Intriguing Tail - A Case of Primary Leptomeningeal Lymphoma.
Doyle M, Costelloe L.
- 11.21 Antibodies to CNTN1/CASPR1 complex in a relapsing-remitting immune-mediated neuropathy: An indolent, atypical history, expanding the phenotype.
Durcan R, McKenna MC, Connolly S, Kinsella J, Rinaldi S, Hutchinson, McGuigan C.
- 11.33 Flying saucers but no aliens: tea-break hemichorea-hemiballismus.
Finegan E, McCloskey C, O'Riordan, S, Kinsella J, Tubridy N, McGuigan C.
- 11.45 Infectious, neoplastic, autoimmune or metabolic - a case of late onset MELAS mimicking encephalitis.
Harley M, Flynn P, Hughes S.

12.00 – 12.20 Tea and Coffee Break

Session III

- 12.20 Neuropsychiatric Symptoms and Choreiform Movements in an 81Year Old Man.
Fives C, Bermingham N, Margot Bolster M, Jansen N.
- 12.32 The Ghost in the machine: A case of CASPR2 encephalitis.
Donlon E, Cryan J, Boers P, Counihan T, Chaila E.
- 12.44 The wood and the trees: establish a SCA48 diagnosis in an Irish family.
Lyons S, Gunko A, Munteanu T, Brett F, Walsh R, Redmond J.
- 12.56 Double Trouble? ORAI 1 gene mutation in a patient with HMGCR myopathy?"
Joyce E, O'Regan A, Counihan T.
- 13.08 CSF Gq1B Antibodies; Expanding the Miller Fisher Syndrome Spectrum?
Lockhart A, Mills J, Boers P.
- 13.20 The interrupting imposter linking dementia, ataxia and parkinsonism.
Menon PJ, Counihan T, Elamin M.

13.40 – 14.20 Lunch

RESEARCH PRESENTATIONS
15 minutes: 12 minutes + 3 minutes questions

Session IV

- 14.20 Virtual Neurology Clinics: Doctor and Patient perspective.
Chaity D, Williams J, Llamas Y, Buckley C, Laffan A, McGovern E, Marnane M,
O'Rourke K, Walsh R, Smyth S, Iyer P, Lynch T.
- 14.38 Repeated median nerve conduction studies for possible carpal tunnel syndrome - a
retrospective review.
McKenna MC, Connolly S.
- 15.07 Judges Deliberation
- 15.30 Announcement of Awards
- 16.00 Close of Meeting
